SUMMARY

Full Stack Web Developer with a background in Economics and life-long dedication to learning. Accomplished AS Degree in IT and recently, have earned a certificate in Full Stack Web Development from UCSD Extension Coding Bootcamp. The program greatly enhanced my skills in HTML, CSS, JavaScript, JQuery, ReactJs and NodeJs. Enthusiastic about developing websites and apps with a focus on responsive design and development. Effective both in collaborative and individual work and known as problem-solver and detail oriented. Experienced in working under fast paced and stressful work environment and awarded as excellent passenger service handling agent of the year(2013).

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, JQuery, Bootstrap, NodeJs, MySQL, MongoDB, Express & ReactJS.
Applications/Tools: Git, Github, Visual Studio.

PROJECTS

Cinephile Central | Github link: https://github.com/BullHamund/New_York_Times-Square.git
- It is an app that serves as a one-stop shop for all movie fans. With one search users can discover movie reviews from top critics and free streaming.
- I designed and built the front end for a search, result and detail page for a movie review site. I also consumed New YorkTimes api, used JQuery, to retrieve search results and render the UI. In addition, I used OMDB api to fetch imdb id that was used to retrieve free streaming api.
- HTML, CSS, Bootstrap, JavaScript, JQuery, JSON

chefMEup | https://github.com/matteuc/chef-me-up.git | https://chef-me-up.herokuapp.com
- chefMEup is an interactive app that renders possible recipes based on the users ingredients in their fridge. Signed in user can save their favorite recipes and even can share their own recipe.
- Responsible for databaseI design, association and query. Built ingredient and recipe api.
- HTML, CSS, Bootstrap, JavaScript, handlebars, MySQL, Sequelizer, NodeJs, Express, and Heroku

Mheels | https://github.com/rgonz166/project3.git | https://mheels.herokuapp.com
- Mheels is an app that tracks food truck and locate vendors near to users. The app not only shows the vendor location but users can view menu of their chosen food truck.
- Build most of the components and the general layout including the client side API.
- ReactJS, CSS, Reactstrap, JavaScript, Auth0, MongoDB, Mongoose, NodeJs, Google API, Express, Axios and Heroku

EXPERIENCE

Passenger Service Agent	Washington Dulles Airport , Dulles, VA
Lufthansa	2011 – 2014
Ethiopian Airlines	2012 – 2015

- Acknowledge customers presence and greet customers in a professional manner.
- Prepare daily routine plan and assign about 15 agents for their duty.
- Verify document and visa requirement, check-in passengers, and issue board pass for more than 200 passengers.
- Reschedule misconnected passengers which demand quick problem solving skills and efficiency under fast paced and stressful work environment.

Statistician   Addis Ababa, Ethiopia
Central Statistics Agency   2007 - 2009
- Analyze data and prepare monthly and quarterly report for 25 to 30 internal users.
