SUMMARY

Full Stack Web Developer with a background in Economics and lifelong dedication to learning. Accomplished AS Degree in IT and a certificate in Full Stack Web Development from UCSD Extension. Enthusiastic about developing websites and apps with a focus on responsive design and development. Effective both in collaborative and individual work and known as problem-solver and detail oriented. Experienced in working under a fast paced and stressful work environment .

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, JQuery, Bootstrap, NodeJs, Handlebars, MySQL, MongoDB, Sequelize, Mongoose, Express & ReactJS.
Applications/Tools: Git, Github, Visual Studio, Heroku, API and Slack

PROJECTS

Cinephile Central | Repo: github.com/HannaBella/Cinephile-Central.gits | **Deployed:** hannabella.github.io/Cinephile-Central/
- App that serves as a one-stop shop for all movie fans. With one search users can discover movie reviews from top critics and free streaming.
- Designed and built movie review feature and DOM manipulation. Consumed NY Times api to fetch movie reviews from top critics and OMDB api to get imdb id that was used to retrieve streaming sites.
- HTML, CSS, Bootstrap, JavaScript, Lodash, jQuery, JSON and Utelly API

ChefMEup | Github Repo: https://github.com/HannaBella/chef-me-up.git | **Deployed:** https://chef-me-up.herokuapp.com
- Interactive app that renders possible recipes based on the users ingredients in their fridge. Users can sign up and save their favorite recipes and even can share their own recipe.
- Responsible for database design, association and query. Built ingredients and recipe api.
- HTML, CSS, Bootstrap, JavaScript, handlebars, MySQL, Sequelize, NodeJs, Express, and Heroku

Mheels | Github Repo: https://github.com/HannaBella/Mheels.git | **Deployed:** https://mheels.herokuapp.com
- Tracks food trucks and locate vendors near to users. The app not only shows the vendor location but users can view the menu of their chosen food truck.
- Built most of the components and the general layout. Developed client side API to consume server side API.
- ReactJS, ES6, Reactstrap, JavaScript, Auth0, MongoDB, Mongoose, NodeJs, Google API, Twitter, Express and Heroku

EXPERIENCE

Passenger Service Agent   Washington Dulles Airport , Dulles, VA
      Lufthansa   2011 – 2014
      Ethiopian Airlines   2012 – 2015
- Acknowledge customers presence and greet customers in a professional manner.
- Prepare a daily routine plan and assign about 15 agents for their duty.
- Verify document and visa requirement, check-in passengers, and issue board pass for more than 200 passengers.
- Reschedule misconnected passengers which demand quick problem solving skills and efficiency under a fast paced and stressful work environment.

Statistician   Addis Ababa, Ethiopia
Central Statistics Agency   2008 - 2010
- Analyze data and prepare monthly and quarterly reports for 25 to 30 internal users.

EDUCATION

Certificate in Full Stack Web Development: UCSD Extension, San Diego, CA   2019
AS Degree in Information Technology: Northern Virginia Community College, Sterling, VA   2014 - 2016
      Graduated with Summa cum laude (GPA 3.93/4)
BA in Economics: Alemaya University, Alemaya   2003 - 2006
